

UNIHOC 2008/2009

The world is our playground!

In the rapidly growing floorball world, Unihoc is continuing to lead the way. Supporting the best club teams in the world at the same time as we are closely co-operating with national teams in many of the booming floorball nations, we are certain to always get the necessary input about what is hot and what is not. That way we can continue to give the world what it wants.

SHAFT TECHNIQUES – the pride of UNIHOC

BUBBLE: The unique Bubble technology moves the flex closer to the blade, which adds a greater kick to the shot.

Material: Air Pressure Carbon Fibre.

PISTOL: The Pistol grip at the top of the shaft gives a slightly angled grip, creating a feeling of holding a gun. This ingenious solution adds a great touch to your game.

Material: Air Pressure Carbon Fibre.

TOP LIGHT: The Top Light shaft is the lightest Unihoc shaft of all times, giving a completely new feeling for the game.

Material: Light weight Carbon Fibre.

TWS: Our patented Two Way System, with waves along the lower part of the shaft, gives a harder flex on the forehand side than on the backhand side. This stick is perfect for the two way player, creating a weapon equally lethal from both sides.

Material: Air Pressure Carbon Fibre.

DOUBLE BUBBLE: A smaller bubble is put under the bigger one, making the distance to the blade even shorter. This increases the catapult effect even more, and the extra kick is massive.

Material: Air Pressure Carbon Fibre.

CURVE: This world sensation is yet another fantastic invention by Unihoc. The bottom of the shaft is curved to create an increased angle towards the blade, adding increased power to the shots. We guarantee that the Curve shaft will give you a completely new floorball experience. Once you have tried your first shot you will know what we mean. The shaft is available with two different curved angles, and also with various flex.

Material: Air Pressure Carbon Fibre.

BAMBOO: This bamboo shaped shaft is created with the new step power technique, bringing several advantages to the finished product. Its ingenious, yet simple, construction makes it possible to create an extremely light shaft and still keep the strength of the flex. The fine-tuned balance of the shaft is extraordinary.

Material: Air Pressure Carbon Fibre.

READY STEADY GO NIÑO SERIES

The NIÑO series has been especially developed to be the perfect choice for our youngest players, who need shorter sticks with more flex than grown-ups. Also the blade is tailor made for kids with its reduced size that makes it easy to handle and that also offers lower weight and increased ball control.

ERUPTION VOLCANO SERIES

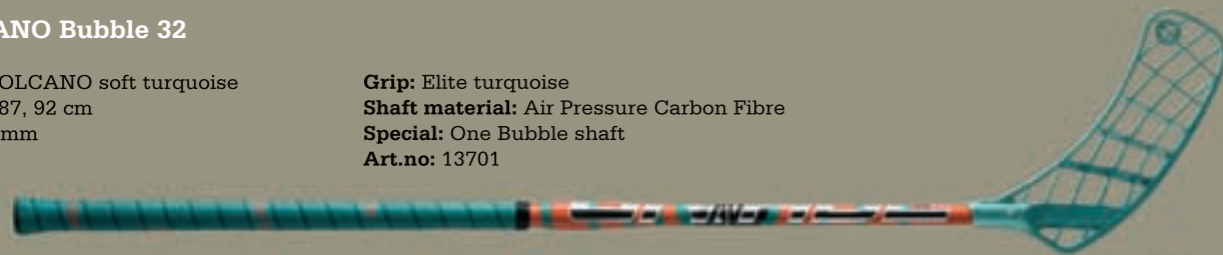

This season we present the Volcano series, the stick of the future. The classy, yet spectacular design combined with the benchmark technology that has always been the trademark of Unihoc ensures to make this new series the hottest on the market. A new blade with maximum dimensions, little concavity and an aggressive, yet typical, Unihoc look has been developed for this flagship series. Volcano is the result of all our gathered experience and best components put together in a single stick.

BLADES

NIÑO

Developed to suit the needs of our youngest players, the reduced size of the Nino blade is easy to handle, and it also offers a low weight and increased ball control.

-  Soft turquoise / Art.no: 11861
-  Soft neon orange / Art.no: 11863
-  Medium black / Art.no: 11865

EVO

This is the very first blade in the EVO line. With its slightly concave face and characteristic design, this is a classic blade in the history of floorball.

-  Soft yellow / Art.no: 11901
-  Medium black / Art.no: 11905

EVO 2

With its modest size, slightly concave face and scooped top, the EVO2 is the most sold blade in the history of the game.

-  Soft neon green / Art.no: 11919
-  Medium black / Art.no: 11921
-  Medium silver / Art.no: 11923
-  Hard white / Art.no: 11941

EVO 2 HOOK

With its pre-hooked top you can easily become the next Zorro star.

-  Soft neon green / Art.no: 11929
-  Soft yellow / Art.no: 11931
-  Soft dark blue / Art.no: 11933

ACE

The ACE blade is created to make use of the maximal dimensions allowed, giving a larger face with a smooth concavity and a rounded top.

-  Soft sky blue / Art.no: 11945
-  Soft yellow / Art.no: 11949
-  Medium black / Art.no: 11951
-  Medium dark blue / Art.no: 11953
-  Medium neon green / Art.no: 11957
-  Hard white / Art.no: 11959

RAD

RAD is a modern blade with a larger radius towards the floor, creating the feeling of a longer blade and offering extreme torsional rigidity for maximum power.

-  Soft yellow / Art.no: 11977
-  Soft sky blue / Art.no: 11981
-  Medium red / Art.no: 11975
-  Medium black metallic / Art.no: 11983
-  Medium turquoise / Art.no: 11985
-  Hard white / Art.no: 11989

BADGE

The BADGE blade was originally developed as an anniversary model, as a slightly adjusted version of the PLAYER blade with the Unihoc symbol in the top. The success that followed made us keep the model in our regular blade range.

-  Medium pearl white / Art.no: 11871
-  Medium black metallic / Art.no: 11873

VOLCANO

The VOLCANO blade is a new addition to our blade range. We have maximized the playing surface of the face and combined it with modest concavity and a longer radius towards the floor to create a top modern blade. The progressively tilted bars give an aggressive look, still there is now doubt that this is a typical Unihoc blade.

-  Soft pink / Art.no: 11961
-  Medium black metallic / Art.no: 11963
-  Medium pacific blue metallic / Art.no: 11965
-  Medium turquoise / Art.no: 11967
-  Hard pearl white / Art.no: 11969

EVO 3

EVO3 is the second generation of the successful EVO2 blade. The measures of the blade have been increased to create a larger face, but still keeping all the positive features of the first version.

-  Soft green metallic / Art.no: 11879
-  Soft neon orange / Art.no: 11881
-  Medium silver / Art.no: 11883
-  Medium dark blue / Art.no: 11885
-  Medium black metallic / Art.no: 11887
-  Hard white / Art.no: 11889

EVO 3 HOOK

The pre-hooked top of the blade helps you improve on your Zorro moves.

-  Medium black metallic / Art.no: 11875
-  Medium neon orange / Art.no: 11877

iRULE

This is the Zorro blade from Unihoc. It has been based on the successful PLAYER blade, with the addition of a pre-hooked top. Approved for match play by the IFF.

-  Soft yellow / Art.no: 11851
-  Medium purple metallic / Art.no: 11853
-  Medium gold / Art.no: 11855

PLAYER

With a rather modest concavity the PLAYER blade combines extremely low weight with unprecedented firmness, still offering a fantastic touch.

-  Soft neon green / Art.no: 11891
-  Soft neon orange / Art.no: 11897
-  Medium turquoise / Art.no: 11893
-  Medium gold / Art.no: 11907
-  Medium black / Art.no: 11895
-  Hard white / Art.no: 11899

Goalie

Over the years, Unihoc has been setting the standards for the most elaborate goalie gear available. Developing the right equipment for elite goalies as well as for goalies that merely play for the sake of exercise has been equally important. The range offers all the necessary items for a goalie, with several exciting alternatives to choose from in each segment.

The most elaborate line is the Unihoc Force goalkeeper collection, developed in co-operation with world class goalkeepers. The line is created to offer the very latest in functionality and quality, and at the same time featuring the most stunning design on the market. The eye-catching sweaters and pants can be used for both training and match, and several different materials and colours are available to suit your style and demand.

The Force collection is completed with the Force 33 and Force 55 goalie masks, available in different colours and in two different designs. The Force 33 comes with a round cage, and the exclusive Force 55 comes with the Canada cage and is our top of the line mask, delivered complete with a helmet bag and a towel.

Official Partner of the SWEDISH SUPER LEAGUE

UNIHOOC

The Swedish Super League (SSL) is the top floorball division in Sweden and the best league in the world. SSL was founded in 1995, called Elitserien at that time, and it replaced the Division I-series played between 1989 and 1995.

Unihoc is a proud sponsor of the SSL, and with our support of the league making sure that we are a part of the development that the best players in the world bring forward.
